INTRODUCTION

Dedication

This book is written entirely for entertainment purpose only. I dedicated this book for us including myself, that sometimes working in a prolonged hours in the office are quite boring and sluggish. For no reason, I just simply decided to write, compile, research and implement this book. After I completed and compiled the content of this book, I also started developing this book in android application as well. It took me several months just to complete this entire book along with the application to be live.

Making and writing a book is just part of my enormous hobbies, noting that I work as a System Analyst by profession. Even though time management is quite hard, I never leave a room for my hobbies to slide by. There are even countless websites I've been developed from the past till now, doing this as a freelancer. Most of the websites are either, personal blogs, blogsites, articles sites, e-commerce, fashions, industries, gamers etc. In fact, this makes me familiar in this field.

Significantly, often times I could no longer identify those websites, only by chance I stumbled to come across a website/webpage which are developed and designed by myself. Furthermore, I realized that I would like to try something else new, as in totally new. And that's the specific reason this second book of mine is written.

In the office while taking a break, most of the time I search the web and read some books online, I love self-help books, which almost all my personal websites are based in this subject. There are also many times that I search for a website that is humorous and hilarious.

Primarily, I tend to engrave these jokes in my head and decided to compile and make it as a single book or an application. This is the kind of book that will surely keep me remembering this funniest stuff. So, I write this book to enable myself and others who are looking for funniest stuff to read on their free time.

I can assure you will be going to love what I have to share with you, in fact I'm laughing and excited while doing this book. I can't wait for it to reach this book to all you. Before I forgot, I specially dedicated this book to my wife and daughters, you are the source of all the inspiration and hard work. I love you so much.

Preface
